Dear Mr.Noronha,

I am enclosing herewith a copy of letter received from the Mysore Plywoods Corporation Ltd., Yesvantpur, for an Import License to import certain machinery from America. The letter gives the necessity and urgency for getting certain machinery for their factory. I certify that the requirements are genuine and sufficient raw material is being supplied to them for their present output. Their object seems to be to import the latest machinery for plywood manufacture. I recommend therefore that the necessary import license may be obtained for them and the concerned authorities may kindly be addressed in the matter.

Yours sincerely,

Charles E.Noronha Esq., M.A.,
Secretary to Government of Mysore,
Development Department, Bangalore.

Letter dated 6th April 1946 from The Mysore Plywoods Corporation Limited., P.O.Yesvantpur, addressed to the Director of Industries and Commerce in Mysore, Bangalore.

As you are aware this factory needs the latest type of machinery for Plywood and Wood Working to be imported from - America for better and economical working. The reasons for placing our orders with American manufacturers are that the delivery time is much earlier than from England and also there is a difference in prices.

We have been in touch with the Director General of Industries and Supplies, New Delhi, to secure an Import Permit for the machinery to be imported from America. It is required by the Director General of Industries and Supplies that the Government of Mysore should certify the genuineness of our requirements and the sufficient supply of raw materials. We have also decided to install a part of the machines nearer to the forest to avoid extra charges on the finished products by way of transport.
